

\  
(verse 1)

If me take time and i write down,  
All the thing that i love bout' my island,  
Best believe muh list go be like 2 miles long,  
Best believe its love that make me sing this song,

The cleanest breeze and the waters  
Friendly people meet at every corner  
Togetherness and love is what we stand for  
We stand for

(pre chorus)  
Oh island in the sun  
Look at how we've grown how far we've come  
50 years we strong and more to come  
More to come, more to come,  
Its only up from here

(chorus)  
We're going higher  
50 years we're blessed we're forged in fire  
Grenada going up!  
We're going up  
Going up  
Going up up up up up (x2)

We're going higher (x2)  
As we aspire,  
Build advance as one people together  
It's only up from here.

(Verse 2)

If me take time to reminisce  
On the richness of our history from the beginning  
From the people who came  
To sugar and chains  
Emancipation  
To revolution

We are

More than a speck up on the globe  
We are  
More than the ice green and gold  
We are  
More than the nutmeg and the cloves  
Tell the world we are Grenadians

We are  
Three islands united as one  
Blessed with the strength to carry on  
We're more than just that island in the sun  
Tell the world we are Grenadians

(Chorus repeat)

(Bridge)

Really and truly,  
Can't find the words to describe what my country mean to me  
So much things we take for granted  
But so much things yuh give to we  
Peace and tranquility  
family , community  
It doh matter where me go in the world just know that home is where muh heart be.  
So take a toast to fifty years  
As we strive for fifty more  
As we strive to reach the goal  
Like when Kirani bring the goal  
Were going up, going up  
I could see the vision clear,

Sing it out and make the people hear,  
Its only up from here

(Chorus repeat)
